

The Naturals

Add a touch of nature to your projects with The Naturals by Rowmark. The Naturals product line feature authentic nature-inspired textured patterns infused into the top layer of this engravable sheet product. Featuring the contemporary look of marble, granite and wood, The Naturals are both laser and rotary engravable. They're ideal for all types of signage and display applications, including engraved signage and cut-out letters.

ColorCast Acrylics

Your signage will really stand out with ColorCast Acrylics. They are harder and clearer than extruded acrylics, and they allow you to perform fine, detailed laser and rotary engraving.

ColorCast Acrylics are also available with a gloss finish as shown here. To order ColorCast Acrylics with the gloss finish substitute a "G" in place of the "M" found at the end of each item code.

Gloss Finish

Reverse

LASER MARK

Reverse LaserMark® has a clear finish over a layer of rich color. It offers a crisp, clean image and ultra-fine laser lettering with a durable surface that resists fingerprints. Multiple color signage can be created by back-painting and back-lighting.

FlexiBrass® & FlexiColor®

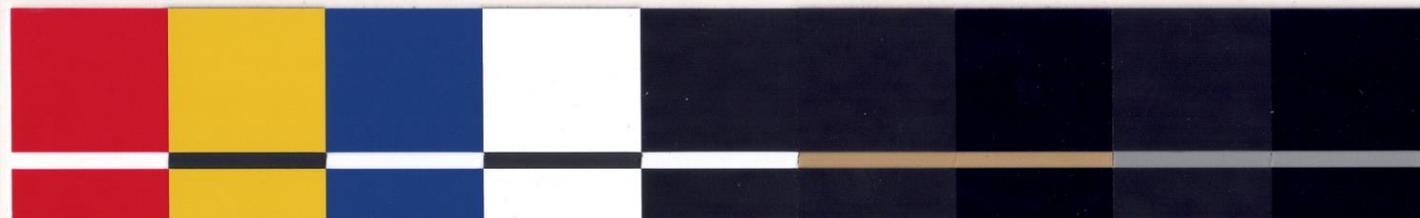

FlexiBrass® & FlexiColor® have the flexibility to wrap around a curved surface, such as trophies, and serve a multitude of purposes in the ad specialty and indoor signage markets. It's easy to fabricate, lightweight, and will not tarnish like brass.

NoMark^{Plus} & Standard Metals

Standard Metals and NoMark^{Plus} Metals have the luster of real metal. Each color is created through a textured gravure process to reflect its own unique quality. For added protection, order NoMark^{Plus} coating, a special hard-coat that gives the metals superior durability to prevent scratching and marring, along with the benefit of a glossy appearance to provide a lustrous real metal finish.
